

# The Elevated Locker

Park'nNest transforms unused overhead garage space into **secure, private storage** located directly above a resident's assigned parking space. Our freestanding locker delivers an **elevated storage solution** while a vehicle parks safely below.

## Why Communities Choose Park'nNest

- Freestanding system** — no drilling into walls or ceilings
- Professionally installed** by our dedicated team
- Clean architectural design** built for garage environments
- A premium amenity** that differentiates your property

## Why Residents Love Park'nNest

- Private, secure, and conveniently** accessed
- Located **directly above** assigned parking space
- 88 cubic feet** of elevated storage
- Supports up to **900 lbs** distributed load

## Built to Last

- Heavy-duty **powder-coated steel**
- Ventilated perforated panels**, top and bottom
- Optional **shelving & bumper pads**
- Rust-resistant, **weather-protected finish**
- Adjustable to fit** vehicles, SUVs & trucks

## Complimentary Nest Program

We install a complimentary demo locker at **no cost, no obligation** and **no commitment**, so your team, board, and residents can experience it firsthand, right in your own garage, before committing to a broader rollout. We handle everything: **installation, resident communications** and **sign-up coordination**.
